

“Vision Experts play a pivotal role in the quality strategy of Contego Packaging”

Contego Packaging operates from ten manufacturing sites across Europe, producing innovative packaging solutions for the pharmaceutical industry. The product portfolio provides a comprehensive range including cartons, leaflets, self-adhesive labels and blister pack foils. The company’s sites in Northern Europe are equipped with state-of-the-art printing and folding technology to meet the stringent quality requirements of the pharmaceutical industry.

In 2009 Contego Packaging carried out a comprehensive analysis of the marketplace and chose Vision Experts for its inspection system. The first installation was on an eight-colour web press at Wolfen. Michael Pellert, Site Manager Contego Packaging Wolfen said: “We use this machine extensively for complex eight-colour leaflets which is why we need to eliminate every possible risk to quality.”

Thorsten Schon, Site Manager Contego Packaging Sarreguemines, is also fully committed to the inspection system. "For our new press, we have developed a separation unit for defective prints in close collaboration with Vision Experts and other partners. Defective prints are detected by Vision Experts' system and removed automatically which means that only products meeting our stringent criteria end up on the pallet."

Contego Packaging's strategy is to provide quality products for its customers: "Vision Experts play a pivotal role in this by developing 100% print inspection systems so that we can deliver quality every time."

About Vision Experts

Vision Experts GmbH is a specialist in 100% inspection of premium-quality print products. All solutions are tailored to the needs of our customers. We are amongst the leading suppliers - with over 300 installations for 100% print inspection in 15 countries.

Our solutions are working in web and sheet-fed printing machines, and for converting equipment. Our list of customers includes leading printing machine manufacturers, international packaging manufacturers and medium-sized businesses.
